WHAT'S BEEN WORKING

Pleasure · "Yes, much better" · "Yes, every day"

This is working. Your Pleasure score is up 5 points since March. Keep it going.

Small investment, clear return. Togetherness has stayed stable despite hybrid pressure.

**Map your impact (3 ways your work helps people)**

Significance · "A little" · "Maybe occasionally"

Helpful but not yet a habit. Needs to be weekly, not one-off.

**Purpose conversation with your manager**

Significance · Not yet tried

Still pending. This is the highest-priority action for the next month.

"Not much to show. Called Mum on the commute - that helped the end of day."

→ Small connections matter on hard days.

LOOKING AHEAD

Your focus for the next 3 months

1 Have the purpose conversation with your manager

The one action you haven't tried. Research shows this has the biggest impact on Significance. Book it before end of June.

2 Protect the daily focus block - non-negotiable

It's working. Don't let meetings erode it. Block it in your calendar and treat it as fixed.

3 Do the impact mapping weekly, not just once

You said it helped a little. Frequency matters. A brief weekly reflection - "who did my work help?" - compounds over time.

4 Deliberately reach out to one more colleague

You identified James. The next step is one more person, a different kind of connection.
